

11 Point Checklist

How to Choose a Backup as a Service Provider

The ideal healthcare BaaS provider should:

- 1 ● Meet your specific compliance requirements
- 2 ● Have a simple technical integration
- 3 ● Maintain SLAs and backup levels within RTOs for critical applications
- 4 ● Be able to restore your data in a timely manner
- 5 ● Provide a service based on best-in-class, highly reliable technology
- 6 ● Provide an action plan during an emergency
- 7 ● Backup bare metal, virtual, and cloud
- 8 ● Provide built-in security features
- 9 ● Have redundant, multiple geographic locations for cloud backups
- 10 ● Store data in the United States versus offshore
- 11 ● Utilize an online portal to enter tickets and track them

Control and Confidence in Your Backups

Comport Healthcare Solutions has the expert knowledge and years of healthcare experience to help you navigate the possibilities and perils of hospital IT and best practices. Healthcare organizations face different challenges than other industries, and we offer solutions and services specifically tailored for evolving health information technology requirements.
